

The
Grassroots II

*Futurity & Graded
Beefmaster Sale*

**SATURDAY
MARCH 27, 2010
11 AM**

**Hosted By:
Arkansas Beefmaster
Breeder's Association**

February 15, 2010

Welcome to the Arkansas Beefmaster Breeder Association's Grassroots Sale. Although based in Arkansas, the ABBA is comprised of hardworking breeders in many states. We are all proud to bring this set of cattle to you for your consideration. The consignors to this sale are quite varied. Many have decades of experience in raising Beefmaster cattle; others may have fewer years of experience, but have brought energy, excitement, and the same commitment to this great breed of cattle. All consignors have worked hard to bring functional, honest cattle with superior breeding that will work in purebred and commercial cattle herds.

The sale offering includes cattle to fit any breeders need. Female lots include 3 in 1s, pairs and bred and open heifers. These cattle are sound, fertile and ready to go to work for you.

With spring around the corner, it is time for everyone to look at the bulls. This sale has bulls suitable for every serious breeder. They have the genetics and performance to improve your next calf crop. All are tested for breeding soundness and ready to turn in with your cows.

This year's sale continues to show the commitment to our belief that Beefmaster and Beefmaster cross cattle deserve their place at the forefront of today's cattle industry. Over 40 E-6 females will be offered in this sale. They are ready to make you money!

The ABBA Board, members and consignors welcome you to the sale. You can buy these cattle with confidence. We encourage you to take this opportunity to increase the value of your cow herd and participate in the progress of "Beefmaster-The Cowman's Choice".

Looking forward to green grass,

David Staggs
President, ABBA

**TERMS AND CONDITIONS OF SALE ADOPTED BY
BEEFMASTER BREEDERS UNITED**

1. **BIDDING:** Each animal will be sold to the highest bidder without reserve.
2. **BIDDING DISPUTE:** The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.
3. **TERMS:** Terms of the sale are cash due upon sale, unless prior credit arrangements for the sale have been agreed upon in writing between the Buyer and Seller, in which event, the terms of the written credit arrangement between Buyer and Seller for the sale shall prevail. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to Article I, section 9 of the By Laws of BBU.
4. **PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as the auctioneer declares it sold.
5. **CERTIFICATE OF BREEDING AND/OR TRANSFERS:** All required paperwork will be transferred to the buyer at the seller's expense, upon settlement.
6. **HEALTH:** All animals will have appropriate certificates of veterinary inspection for travel to the sale site and will to the best of the seller's knowledge be eligible for interstate shipment, however, buyers need to be aware of their individual resident states requirements for shipment of cattle. Any and all testing will have been completed within thirty (30) days of the sale date.
7. **ANNOUNCEMENTS:** Any changes in information of any kind will be announced from the auction box and such announcements shall take precedence.
8. **BREEDING GUARANTEES:**
FEMALES: OPEN AND/OR EXPOSED FEMALES: Females younger than twenty-four (24) months of age can be sold as open. Open females are so guaranteed. Any female is considered a breeder if she is certified to be pregnant by a licensed veterinarian at the time of sale and/or has a nursing calf at side. Cows (including donor cows) with calves at side six (6) months or older must be certified to be pregnant by a licensed veterinarian.
SAFE IN CALF FEMALES have been examined by a competent veterinarian and are so guaranteed.
BULLS: Bulls eighteen (18) months or older are guaranteed to have passed a Bull Breeding Soundness Evaluation (BSE) and to have been confirmed a satisfactory potential breeder by a licensed veterinarian within forty-five (45) days prior to sale date. The results of the Breeding Soundness Evaluation (BSE) must be reported on a fully completed official form and attached to the health papers required for the sale.
9. If known to the seller, there must be a disclosure in the current sale catalog or from the box of any circumcision or other surgical alteration of any underline of any male or female and of any single egg or super-ovulation flush of any female sold in a BBU Approved Sale.
10. **INHERITED DEFORMITIES GUARANTEE:** All bred females are guaranteed not to produce a calf with an inherited deformity occurring in Bovine for a period of nine months following date of sale.
11. **GUARANTEES:** All guarantees, if any, shall be such as agreed upon between the seller and the buyer and are not those of BBU. Any representations made in Sale Catalogs, which are not expressly assured by these Terms and Conditions of Sale or the BBU Voluntary Approved Sales Agreements are those of the seller only and are not assured in any way by BBU.
12. **RIGHTS AND OBLIGATIONS:** The above terms and conditions of sale shall constitute a contract between buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction. Neither BBU, the sale manager nor any other person connected with the management of the sale assumes any liability, legal or otherwise, for any subsequent resale of an animal.

**BEEFMASTER BREEDERS UNITED
VOLUNTARY APPROVED SALE AGREEMENT**

1. BBU Terms and Conditions of Sale will be strictly adhered to by buyer and seller.
2. All cattle to be sold shall be represented by the seller as properly identified with permanent identification number. All identification numbers and holding brands, branded or tattooed on an animal, and the description must match identically the identification numbers, holding brands and description listed on the Certificate of Breeding.
3. The designated BBU official responsible for implementing the above regulations will be at the sale site in ample time to inspect the cattle and the accompanying records.
4. All cattle exhibiting any genetic defect that at that time, in the opinion of the designated BBU official would be a detriment to the breed, and any cattle that at that time, in the opinion of the BBU official would classify "X" under the BBU Voluntary Classification Program will be removed from the sale offering.
5. All cattle sold (with the exception of First and Second Cross calves under fourteen (14) months of age and the embryo recipients) must have BBU Certificates of Breeding. (All First and Second Cross calves under fourteen (14) months of age must be accompanied by a properly completed and executed Application for Certificate of Breeding.) The sale management or seller must present all Certificates of Breeding (or applications when applicable) to the BBU office fourteen (14) days prior to sale date. Substitute animals will be accepted provided the Certificates of Breeding (or applications) are in compliance with all applicable requirements upon arrival at the sale site.
6. The consignor/seller guarantees that the ID number, pedigree, birth date, performance, and any other data used to represent their cattle are true and correct as of sale day. All semen and frozen embryos sold at a BBU Approved Sale must have a BBU Bill of Sale provided at the time of the sale. The BBU Bill of Sale shall include, if applicable, the Blood Typing Case # and DNA Genotype Case # of the bull whose semen is sold, or the sire and dam of the embryos being sold. All AI Sires and Donor Dams must have a DNA Profile on file (or Blood Typing, if applicable) at BBU.
7. If an animal is classified, such classification must be reflected in the catalog, as provided for below or on the pen card if applicable or announced from the box. All existing available official BBU performance information will be included in the following block, (only that portion of the block must be printed where official BBU information exists) for the display of official BBU classification and performance information. The sample block below may be used or other formats may be used but the information must be official BBU data as listed on the registration certificate.

8. **REMEDIES:**
FEMALES: OPEN AND/OR EXPOSED FEMALES are guaranteed to be breeders by twenty-four (24) months of age except in cases of animals purchased and then fitted for show or administered any super ovulation drug. In cases of animals fitted for show or administered any super ovulation drug after purchase, the breeding guarantees, if any, shall be such as agreed upon between buyer and seller. All claims for a refund must be made in writing to the seller within six (6) months after the animal reaches twenty-four (24) months of age. Open females are so guaranteed. If within sixty (60)

days after the sale date, a female sold as "open" proves to be with calf, the buyer may return the female to the farm of the seller, provided the female is in good condition and in compliance with the health requirements of the seller's state, and receive refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The buyer's failure to notify the seller within sixty (60) days from the date of sale and to make the election as hereinabove provided shall relieve and absolve the seller of any duty, obligation or liability to the buyer regarding the purchase of said female. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller.

SAFE IN CALF FEMALES have been examined by a competent veterinarian and are so guaranteed. If within thirty (30) days after sale date, a female sold as "safe in calf" proves not to be in calf, the buyer may immediately request that the female receive service from the bull previously used, if available, or return the female to the farm of the seller, provided the female is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The buyer's failure to notify the seller within thirty (30) days from the sale date and to make the election as hereinabove provided shall relieve and absolve to the seller of any duty, obligation or liability to the buyer regarding the purchase of said female. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller.

FLUSHES AND TIME REQUIREMENTS: A flush consists of all viable embryos, transferred or frozen, received from a female as the result of the administration of any super ovulation drug. The sale of a flush or resulting pregnancies must specify in the sale catalog the number of pregnancies guaranteed and the disposition of any other pregnancies resulting from the flush, the disposition of any frozen embryos resulting from the flush and any additional charge for the recipient cows. Further the maximum time for the delivery of the guaranteed results must be specified along with a payment schedule. Non delivery or only partial delivery by the specified time by the seller will result in a refund (pro rata to that delivered) of all monies previously paid by the buyer for such flush or pregnancies not delivered.

PREGNANCY AND/OR PREGNANT RECIPIENT COW: Pregnancy and/or pregnant recipient cow is a cow of any breed that is carrying a pregnancy (examined by a licensed veterinarian and so guaranteed as safe in calf) as the result of a flush as so stated on the certification of embryo transplant form. Such pregnancy and/or pregnant recipient cow is guaranteed to be carrying the embryo pregnancy so stated and if found not safe in calf by a licensed veterinarian within thirty (30) days of delivery of the recipient cow to the buyer, the buyer will have the same remedies as so stated herein for the safe in calf females. The amount bid by the buyer for the individual pregnancy and/or pregnant recipient cow offered at a sale will be inclusive of the recipient cow with no additional cost. A pregnancy and/or pregnant recipient cow should be available at the sale site; however, if not available it must be delivered to the buyer, at the seller's expense, within thirty (30) days of the sale with the necessary health papers sufficient for delivery to buyer.

CLONES: Only BBU replication cell-cloned animals shall be eligible for registration and eligible to sell in BBU Voluntary Approved Sales. Genetically modified animals shall not be eligible for registration and cannot sell in BBU Voluntary Approved Sales. Cloned animals shall be guaranteed by the seller(s) to be breeders under the same terms of the agreement for females and bulls. ALL ADDITIONAL GUARANTEES WITH RESPECT TO CLONES SHALL BE A SEPARATE AGREEMENT BETWEEN BUYER AND SELLER.

BULLS: If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a Breeding Soundness Evaluation (BSE) certified by a licensed veterinarian, the BSE test and notice of failure of the test must be sent to the seller within 120 days of the sale. Another Breeding Soundness Evaluation (BSE) should be performed on the bull by a licensed veterinarian or technician certified by a licensed veterinarian mutually agreeable to the buyer and seller at

the buyer's expense. The results of the test certified by said veterinarian shall be deemed final and conclusive of this matter and binding on both Parties. If, in the opinion of said veterinarian, the bull is unable to pass a Breeding Soundness Evaluation (BSE) and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer including sending the official form used by the Society of Theriogenology or the official BBU Breeding Soundness Evaluation form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller. A listing of industry standards Scrotal Circumferences for bulls at various ages will be printed in the sale catalog. Satellites, Marketing Groups, or individuals may specify additional guarantees.

9. Fees for all services rendered in BBU Approved Sales are available on file at the BBU office.
10. BBU Certificate of Breeding number of the service sire of a bred female must be indicated in the sale catalog (if multiple sire, so state in the catalog).

In making this agreement, I agree to indemnify and hold harmless BBU, its officers, directors and duly authorized representatives from any liabilities which may arise from a BBU Approved Sale. I have read and understand all of the above rules governing BBU Approved Sales; I understand that if I voluntarily agree to enter into an Approved Sale, these rules shall apply to the sale and, I will abide by said rules.

These provisions shall not apply to any sale that has not qualified to the satisfaction of Beefmaster Breeders United as a "BBU Approved Sale." Such qualification shall be manifested by the certifying statement of an authorized person on the staff of or an officer or director of BBU expressed from the sale box immediately prior to the sale.

FAILURE BY A MEMBER TO COMPLY WITH THIS SIGNED AGREEMENT WILL BE AUTOMATIC CAUSE FOR APPEARING BEFORE THE BBU ETHICS AND RULES COMMITTEE TO SHOW CAUSE WHY HE/SHE SHOULD BE PERMITTED TO RETAIN HIS/HER MEMBERSHIP IN BBU.

For Consignors: "This Agreement shall be binding upon me from this day forward for all BBU Approved Sales in which I participate as a Consignor, and shall remain in effect and binding upon me until such time as I or BBU shall in writing revoke this Agreement."

For Sale Managers and Consultants: "This Agreement shall be binding upon me from this day forward for all BBU Approved Sales in which I participate as Sales Manager and/or Consultant, and shall remain in effect and binding upon me until such time as I or BBU shall in writing revoke this Agreement."

Beefmaster Breeders United

Voluntary Classification Guidelines:

Cattle are visually inspected by a BBU field representative for desirable traits. Each animal is classified according to BBU's Standards of Excellence.

Any bull or female in the "U" category will be so designated on the BBU Certificate of Breeding along with the date and initials of the BBU field representative. To be presented for a "U" classification, a female must be a minimum of 8 months with no upper age limit and a male up to 24 months with a scrotal measurement of at least 30 cm taken between 320-410 days. Classification of Certified Beefmaster cattle is \$5.00 per head or \$350.00 per stop, whichever is greater.

Any bull or female in the "X" category will be removed from the registry by BBU's office and so noted by correspondence to the member. BBU will not charge the member a classification fee for an "X" animal.

Bulls must have a yearling scrotal measurement (taken between 320-410 days of age) of at least 30 cm to meet the "U" qualification. A measurement of 34 cm is the objective.

All cattle presented for classification must have permanent identification and must be certified or an application for certification must be presented to the field representative.

To receive a number score on a female, she must have already received a "U" classification and have had her first calf so the BBU field representative can evaluate udder and mothering ability as consideration of her numerical score. Two numbers will be given, one for conformation and one for underline.

To receive a number score bulls must have already received a "U" classification, be a minimum of twenty-four months of age with a current scrotal measurement of at least 34 cm. Two numbers will be given, one for conformation and one for underline.

Scrotal Circumference Scores:

SCORE:	AGE		
	15-20 Mo. Old	21-30 Mo. Old	Over 30 Mo. Old
Very Good	More than 37 cm.	More than 39 cm.	More than 40 cm.
Good	31-37cm.	32-39 cm.	33-40 cm.
Poor	Less than 31 cm.	Less than 32 cm.	Less than 33 cm.

BBU Mission Statement

To enhance breeders' ability to raise and promote cattle based upon the founding "Six Essentials."

*Disposition - Fertility - Weight - Conformation -
Hardiness - Milk Production*

Our Vision: To increase worldwide demand for Beefmaster cattle.

Guiding Principles:

- 1.) Always strive for breed improvement.
- 2.) Never compromise Integrity.
- 3.) Expand...Encourage...Educate...

Good red momma who raised a really nice 2009 calf. Due to calve in May. Her pedigree includes Polled Mandate, Sir Kiffer, Natural Selection, Cherokee Phantom, King Cotton, and Painted Tiger. Bred to our senior herdsire, Soul of the Ozarks. His sire is Soul Man and his dam is a donor cow in Mitch Cash's herd--a Polled Mandate daughter. Don't overlook this one. Calffood vaccinated.

Extremely advanced and fancy female, coming from our now retired donor Queen of Hearts and Black Bayou. This is one of two heifers that have been produced from this flush. She is clean and smooth from nose to tail head. She has the heavy bone and muscle to fit it. There will never be another flush like this! I proudly introduce the Bayou Queen. Bred to Mojo to calve in October.

This is the flushmate to our bred heifer futurity entry. She is another prime example of the great pedigree used in this flush. The only differences in these two heifers is she is horned. She has shown excellent growth and character from birth. With a weaning weight over 600 lbs. and a yearling weight near 1000 lbs., these heifers show the aspect to be a donor in any herd. There will never be another offer like her--the Bayou Star. Seven months bred to Pitch Black at sale time.

Belle was the highest selling lot at Fayetteville in 2004. She is a tremendous daughter of Kentucky Belle and Xcite. She's been AI'd every year and settled first time. The Bayou bull calf at side was out of a half straw of semen Kenny split with another cow. If there was ever a proven cow to put in an embryo program, Belle is it. Belle was AI'd back to Black Bayou on 12/13/09, ECD 9/20/10. Pedigree of calf.

Miss BEL 925 comes from the heart of our program. We will rarely sell a female from our Davidson 603 (Spice Girl) line. Both Black Jack 21 and Soul Man daughters of Spice Girl (deceased) have made tremendous producers for us. We feel the combination of the genetics from these two sires along with Spice Girl will make Miss BEL 925 a nice addition to any herd. Miss BEL 925 is a polled, clean underlined heifer that is very neat fronted with minimal dewlap. Calfhod vaccinated.

An opportunity to purchase a young bred Cavalier daughter out of a Ranger's Pride daughter. This is some of the breed's best genetics. This heifer has eye appeal, good conformation, she's very gentle and has the one thing a heifer definitely needs to have--fertility. She settled AI on her very first heat cycle and will calve at 23 months old. Bred to Black Bayou; ECD 5/20/10. Calfhod vaccinated.
